### ***Jet Source Completes Second of Four San Diego Police Department A-Stars!***

**Carlsbad, CA** — Jet Source Inc. has completed the second of four American Eurocopter AS350B-3 helicopters for San Diego Police Department. The helicopter is outfitted with state-of-the-art law enforcement equipment. The package is entirely NVG (Night Vision Goggle) capable, and includes a thermal imaging system, Avalex Moving Map, and a custom designed radio

command suite. To meet San Diego Police Department's mission specifications, Jet Source designed and fabricated a custom panel, console and racks in addition to all necessary engineering, installation and interfacing.

Rich Parrella, Project Coordinator for the San Diego Police Air Support Unit stated, "Our aircrews believe that not only do they have the most state-of-the-art law enforcement helicopter, they have the most ergonomically friendly cockpit. The crews' ability to perform their mission in a safe and effective manner has been greatly enhanced, due to the excellent completion job performed by Jet Source.

Jet Source is a prestigious Part 145 Avionics Installation and Airframe Maintenance facility located at McClellan-Palomar Airport in Carlsbad, CA. Jet Source specializes in special mission aircraft completions for law enforcement, fire, medical and electronic newsgathering in addition to servicing nearly all aspects of the general aviation market.

For additional information on Jet Source's Avionics Center, or a list of installed equipment, please contact Ken Piland at 760-804-3121 or visit their website at [www.jetsource.com](http://www.jetsource.com).
