## Jet Source Expands Charter Services Fleet of Aircraft

***Four new aircraft – Westwind II, Two Hawker 800s and a Hawker 400-731 – bring new options to private aviation travel***

**Carlsbad, Calif.** — (Sept. 25, 2007) — Jet Source, a full-service aviation firm, today announced the addition of a Westwind II, two Hawker 800As and a Hawker 400-731 to its growing fleet of charter aircraft. Now available for private travel, these new charter aircraft will allow customers to travel greater distances in increased comfort. These aircraft offer luxurious club seating for up to eight passengers, complete cabin entertainment systems and a range of 1800 to 2200 nautical miles depending on the aircraft selected. All four aircraft will be based at the company's headquarters, the McClellan-Palomar Airport (KCRQ) in Carlsbad, California.

"We're gearing up for our clients' ski season," noted Megan Cunningham, vice president of charter services. "As we enter the busy holiday travel time, we expect our clients to be delighted with the addition of these high-end aircraft to add to their wish list for winter travel. Noteworthy is the addition of the Westwind II, which provides more than 2200 miles of air travel for clients' to reach their favorite destinations – whether it's to hit the slopes, visit family or close that important business deal, the Westwind II makes an excellent choice.

### **Westwind II**

The Westwind II has “can do” mission capability. Designed to provide longer range travel at a more affordable price, this versatile jet offers our customers a lower cost travel alternative. The Westwind II aircraft can comfortably seat up to eight passengers with club seating and has an expanded baggage compartment. There is plenty of room for the entire family’s baggage and all of their sports equipment for a fabulous winter ski vacation. There is also a convenient mini galley located in the forward cabin, a private aft cabin lavatory and the added convenience of an in-flight phone. The Westwind II has very impressive long-range, non-stop route capability of approximately 2,200 miles or up to six hours of flight time.

### **Hawker 400-731**

The Hawker 400-731 is a member of the well respected Hawker family and is the predecessor of the well known Hawker 800, 800XP and the latest Hawker 950. This particular aircraft brings a chic interior incorporating a leopard print two-place divan and individual club seating for five additional passengers. The Hawker 400-731 offers a large forward galley, stand-up cabin and an aft located lavatory. To help keep passengers entertained during their “up to 1800 nautical flight” this aircraft is equipped with DVD and CD entertainment systems. Our clients can jet set from San Diego to anywhere in the Northwest of Midwest in non-stop comfort and style.

### **Hawker 800As**

Increase your productivity in our Hawker 800A. Power up your laptop, fax documents and receive e-mails all in an ultra quiet spacious cabin with four leather club seats, and a two-place couch opposite a single executive seat. This long range aircraft can fly to New York non-stop from the West Coast, and with the features on board, you can enjoy a relaxing flight or work efficiently as you travel across the country.

Since its inception ten years ago, Jet Source has successfully managed a fleet of aircraft including Gulfstreams, Challengers, Falcons, Hawker, Lears, Citations and King Airls. The company proudly offers a full spectrum of available aircraft for private flight.

### **About Jet Source**

Established in 1997, Jet Source is a nationally recognized business aviation center and is the only facility in California having the internal capabilities to support the operational needs of corporate aircraft at one location. Headquartered in southern California at the Palomar-

McClellan Airport in Carlsbad, CA, Jet Source boasts more than 120,000 square feet of hangar space, a FBO with an Executive Terminal and provides maintenance, avionics, ramp service, fuel sales, aircraft charter, management and aircraft sales/acquisition. In 2009, Jet Source will open a new, state-of-the-art facility in Henderson, Nevada, that will consist of two 35,000 square foot hangars and an executive terminal. More information can be found online, [www.jetsource.com](http://www.jetsource.com).
