## **Jet Source adds luxurious Legacy jet**

*Offers clients the highest quality amenities and efficient, international service capabilities*

**CARLSBAD, Calif. April 14, 2009 ...** Jet Source, Southern California's leading business aviation center, announces a new addition to its fleet of chartered aircraft. The Embraer Legacy 600, is one of the most luxurious aircraft in the Jet Source fleet serving both business and leisure travelers.

One of the largest in the fleet, the Legacy provides up to seven hours of travel time to reach destinations of up to 3,200 miles, making it perfect for cross-country and inter-continental trips. The 42 foot 9 inch cabin accommodates up to 13 passengers with 10 leather club chairs and a three seat divan that converts into a comfortable bed. Its full galley comes complete with crystal glassware, oven and microwave for in-flight gourmet dining provided through Jet Source's concierge service, which will take care of all the travel details for business or personal travel.

The Legacy boasts an entertainment system with two monitors, individual DVD players, stereo system, and Air Show, which gives real-time flight status with visual graphics, maps and safety data. Its ample 1,000 pounds of baggage space can be accessed in-flight for client convenience too, particularly for traveling business groups who can use the flight time productively.

"The Legacy is known around the world for its luxury and excellence, and we are thrilled to offer this as part of our chartered fleet at Jet Source," said Megan Cunningham, vice president of charter services. "With non-stop service to the East Coast and one stop to Europe, the Legacy provides our customers with the luxury and quality service they've come to expect from Jet Source."

The 2006 Legacy is the 12<sup>th</sup> aircraft on Jet Source's 135 charter certificate. Other aircraft include a Gulfstream 400, Challenger 604, Falcon 50, Hawker 800A, Citation VII, Westwind II, Citation CJ3, and Citation I.

**About Jet Source:**

Jet Source is San Diego's leading business aviation center and is the only facility in Southern California to combine a fully-equipped Fixed Base Operation (FBO) with full charter, aircraft management, maintenance, avionics and dedicated fuel station services. It's also uniquely solar-powered, and the only San Diego charter company to earn an ARG/US Platinum rating, the industry's highest standard of safety.

Located at McClellan-Palomar Airport in Carlsbad, California, where it offers unparalleled privacy through its secure, gated access and private car service to the ramp, Jet Source is the gateway in and out of San Diego for many of its most influential visitors and residents.
